

Are you searching for a reliable IT environment, which can be flexibly adjusted and expanded easily, fast and without taking risks?

DataTAAG has partnered with Fujitsu on the flexible and scalable **vShape solution** that combines all aspects of a virtual environment, based on reliable technologies and best practice solutions, with simple implementation and operation.

As a customer, you can benefit from validated architectures by having a simpler, more streamlined experience. vShape provides convincing solutions to the complex challenges of virtualization such as performance, availability, security, flexibility and efficiency.

vShape paves the way to virtualization and Cloud!

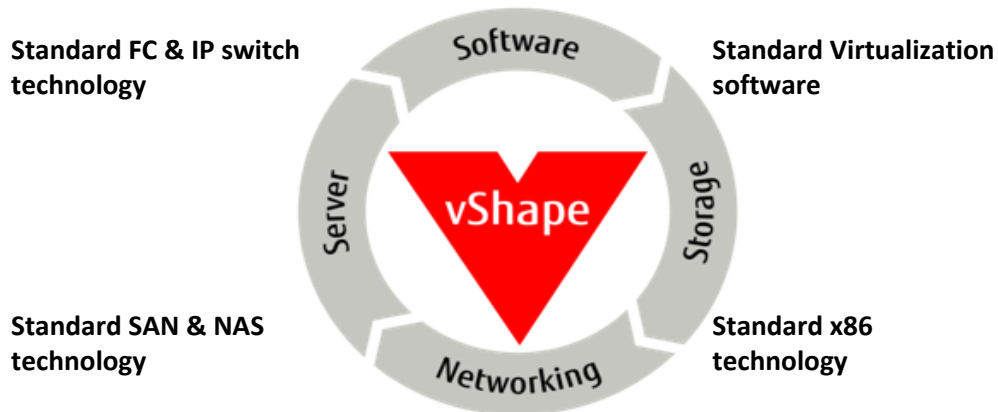

Customer benefits vShape

- Ideal IT infrastructure for virtualized environments based on industry standards
- Clear management and consolidation benefits
- Satisfies capacity, high performance and high availability needs
- Highly scalable and flexible architecture
- Simple, fast and risk-free implementation
- Easy handling and administration
- Improves operational efficiency by reducing costs

vShape encourages IT consolidation. This means customers need less hardware and can use their IT more efficiently, reducing operational costs and efforts.

Based on Standards – perfectly synchronized – streamlined management – no lock-in

The offer and the components at a glance

The initial configuration supports at least 50 concurrent virtual machines.

ETERNUS DX version

- ETERNUS DX80 S2
- 2x PRIMERGY RX300 S7
- 2x Brocade 300 FC switches
- VMware vSphere 5.x Essentials Plus

NetApp FAS version

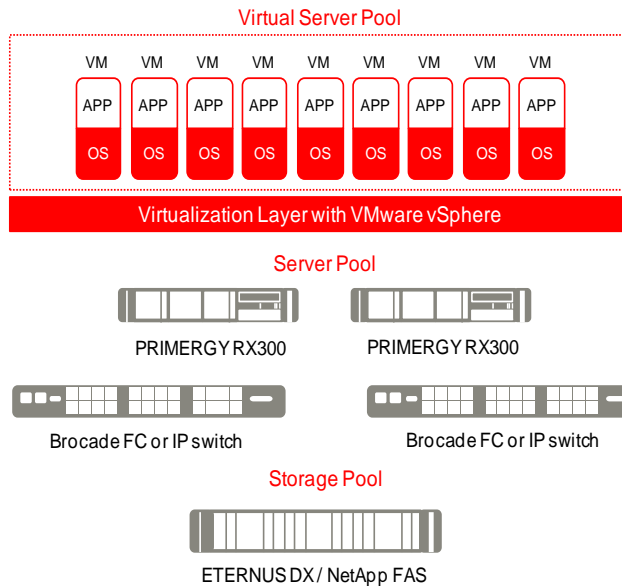

- NetApp FAS2240
- 2x PRIMERGY RX300 S7
- 2x Brocade FCX648S IP switches
- VMware vSphere 5.x Essentials Plus

Combined with DataTAAG value-added services: Consultation and implementation

From Virtualization to Private Cloud

VMware vCloud Director

vShape reference architectures as foundation for Private Cloud

- Example:
 - vShape integrates with VMware vCloud Director to realize a fully-featured IaaS model
 - Allows to provision software-based services within minutes
